Financial

Health Savings Account (HSA)

The HSA is available to employees who are enrolled in the High Deductible Health Plan and allows you to direct a portion of compensation, on a pre-tax basis, into this account. You can use this account to reimburse yourself for qualified medical expenses as defined by the IRS. You will receive a debit card from WEX to use toward medical expenses. The HSA has many advantages:

- pre-tax deductions
- the funds roll over each year
- you own the HSA which makes it portable if you leave Save the Children
- you can enroll or change your contribution at any time during the year

If you contribute to the HSA, the Agency will match your contributions dollar-for-dollar up to a maximum of \$700 for individuals or \$1,400 for family coverage.

Note: the Agency's contributions will reduce the IRS amount you can contribute. You cannot set up an HSA until April 1 if you had a healthcare FSA balance on the prior December 31.

Flexible Spending Accounts (FSA) Healthcare and Dependent Care

The Healthcare FSA is available to employees who are not enrolled in the High Deductible Health Plan, while the Dependent Care FSA is available to all employees.

The FSA allows employees to direct a portion of compensation, on a pre-tax basis, into these accounts which can be used through the year to reimburse yourself for certain out-of-pocket expenses.

You may use the funds to pay for co-pays, deductibles, unreimbursed dental costs, vision services, and medical equipment. You will receive a debit card from WEX to use toward medical expenses.

You may use the funds to pay for eligible dependent care expenses (like babysitting and elder day care costs for qualified dependents).

Eligible qualified dependent:

- Tax dependent child under age 13
- Tax dependent of yours such as an elderly parent or spouse who is physically or mentally incapable of self-care and has the same principal residence as you
